Subject: Post Closure Permit

Andy and Bill, I need to let both of you know that the Tribes are very serious with setting up a joint Post Closure Permit for the RCRA Ponds at FMC. Last week the Tribes were informed that Linda Meyer would no longer be handling the RCRA component as she was transferred over to the CERCLA Program. We would like to request a meeting to discuss this issue with EPA.

I included Linda on this distribution but not sure who would be replacing her. This was something that was brought up with Carla Fisher and was aware of this request.

Thanks

Kelly C. Wright
